

IN THE CASE OF AN EMERGENCY,  
FOLLOW THE DIRECTION OF LOCAL OFFICIALS.

# Safety Card

## **Medical, Fire and Police:**

Dial 911 and immediately give address: 866 West Street in Taylors Falls

**First Aid Kit:** Bathroom medicine cabinet near kitchen

**Fire extinguisher:** Kitchen Counter to right of stove

## **Location of fire alarm**

Fire alarms are automatic and linked together electronically

## **Location of gas shutoff valve**

At gas meter outside the house. If you smell gas, please leave immediately and call 911 and host.

## **Emergency exit instructions**

Upstairs: If the stairs are not passable due to smoke or fire, the best exit is from the NE (twin bed room) windows out onto the flat roof of the back porch. You can also exit from the laundry room window out onto the front entrance roof.

## **Tornado and Severe Weather Alerts**

Taylors Falls tests the siren every Wednesdays at 1pm so do not be alarmed. If you hear the siren at other times, check the TV or internet for weather alerts and warnings and follow instructions. If there is a threat that requires taking cover, please carefully go down into the basement using the door at the end of the front entrance hallway. The key is on a nail in the upper right corner.
